TO: Distribution

FROM: Chief Health and Medical Officer

SUBJECT: 2011 NASA Occupational Health Meeting: July 11-15, 2011

The Office of the Chief Health and Medical Officer will hold its Annual Occupational Health meeting in Albuquerque, New Mexico at the Albuquerque Marriott Hotel. The theme this year is, *"Portals to the Future: People, Partnerships, and Prevention."* There will be three Professional Development Courses (PDC) offerings on Monday, July 11: Employee Assistance Program (EAP); Environmental Health; and Occupational Medicine (OM). Additionally, four Breakout Sessions for OM, Industrial Hygiene, Health Physics, and EAP will be provided. As offered last year, we are planning a no-host, pay-as-you-go, networking gathering on Monday evening, July 11.

The NASA Occupational Health Website, <http://ohp.nasa.gov/oh2011> provides the meeting agenda, registration information, and other important logistical details. More information will be forthcoming on the PDCs. The Albuquerque Marriott reservations must be made by June 24, 2011, to receive the Federal Government lodging rate. Please reference the "Occupational Health Meeting" when making your reservations to obtain the discounted rate.

We recognize that NASA is undergoing tremendous change at this time and budget allocations for travel may be limited. However, participation in this year's Occupational Health Meeting is strongly encouraged. It is an excellent means of earning low-cost continuing education credits, networking with Agency colleagues, receiving updates on Agency initiatives, and learning about current trends in Occupational Health. If you require additional information, please contact Ms. Gail Bantugan, Meeting Coordinator, at (321) 867-3164.

We look forward to seeing you in July!
